The ability to negotiate well is an absolute necessity. Anyone can strike a deal by conceding, but in today's market you can't afford such a tactic. Change the game and turn the typical positional negotiation into a co-operative discussion, helping you maintain positive relationships with your clients and keep your margin.

Negotiating well boils down to the preparation done beforehand, your ability to think on your feet and the confidence to pause negotiations to reflect and review your position.

This course offers the latest methodologies and coaching from seasoned negotiators. You'll also receive unique insight into how buyers think and behave.
